MY PROFIL

I am currently in my last year of engineering school and have just completed a dual degree in information systems and digital management in a management school. My goal is to become a project manager engineer in the information systems sector.

CONPUTER SCIENCE

➢ Salesforce
➢ Microsoft Power BI
➢ Suite office 365
➢ Python, Java, C++, C, HTML, CSS, Javascript
➢ Windows, Linux, Mac OS
➢ Catia, Solidworks
➢ IOT : LoRaWAN, Nb-IOT, MQTT, 4G, 5G

MANAGEMENT

➢ Lean management
➢ Agile method
➢ Risk management, information security, crises and conflicts

LANGUAGE

French : native language

English : TOEIC 815

POINTS OF INTEREST

➢ Soccer, badminton, swimming, fitness
➢ Electronic projects, computer science, web development, blockchain, AI (Dall-E, GPT2, GPT3)
➢ Arduino, Raspberry and Node MCU
➢ Chess, reading and movies

PROFESSIONAL EXPERIENCE

06/2021- 10/2022 **Linkcity, Bouygues construction, Challenger Guyancourt**
Digital transformation project manager

- Power BI creation from raw data to UI/UX
- Extraction of Salesforce data for Power BI reporting
- Automated the analysis of project data to a Power BI for the COMEX (language: VB, JAVA and Python)
- Handle Linkcity's data issues
- Participate with the DGA in the various steering committees upstream and downstream of the BBFE transformation (Bouygues bâtiment France Europe)
- Shutdown of Linkcity France servers and data transfer
- Creation of Salesforce dashboard, export of data to other platforms for further analysis and training of employees on the use of Salesforce
- Office 365 Linkcity France: creation of interconnected environment (Team, SharePoint, Planner, OneNote, BI ...), training and support of employees on new digital tools
- Find digital solutions aligned with the company's choices
- Choose the software and hardware tools
- Follow the digital communication
- Digitize work methods
- Follow and choose the software and hardware tools
- Accompany the training and the diffusion of the digital culture
- Prepare and organize the change
- Accompany teams in their daily work
- Prepare and lead information meetings

2018-2021 **CFS, Pont-Péan**
Private teacher of mathematics and physics

Planning and preparation for competitive exams, analyzing difficulties and assisting students in their academic career from high school to graduate school

EDUCATION

2017-TODAY **General engineering degree in computer science**
Rennes, FR *ECAM Rennes*

- Computer system - Information system
- Distributed systems
- System, network and web
- Cybersecurity
- Cloud - virtualization
- UX Design
- Industrialization of IT developments
- AI & Machine learning
- Application design-UML
- Big data - Open data
- Technologies for communicating objects
- Mobile robotics
- Programming of communicating objects
- Embedded systems development
- Java - JEE development
- Web applications and services development
- Development of mobile applications
- Standards and protocols for computer systems
- Sustainable development - green computing
- Eco-legal approach of a project

2021-2022 **Information systems and digital management**
Paris, FR *Grenoble Ecole de Management*

- *Agile management of projects and organizations*
- *Risk management*
- *Crisis and conflict management - Team management and cross-functional organizations*
- *IS urbanization*
- *IS governance*
- *Information security management*
- *IS security*
- *New uses: Blockchain*
- *BI and Smart Data: Analytics and business value*
- *IT and Digital Culture - Contribution of the IS to the strategy of organizations*
- *Purchasing and IS*
- *Sustainable development and IS*
- *IS financing*
- *Digital marketing*
- *The consulting business: technical and commercial proposals*
- *Self-assertion*
- *Approach and behavior of the consultant*
- *"Red wire project (integrative project of company)*
